Address all communications to THE EVENING TELEGRAM, Greensboro, N. C.

SATURDAY, MAY 21, 1898.

You can get the telegraphic news twelve hours earlier in THE TELEGRAM than in any paper that gets into Greensboro, and for four dollars a year less.

Scientists have discovered a magnetic island and, strange to say, it is not Cuba.

In the concert of the Powers no one appears over anxious to assume the baton and become a target for the bouquets.

The confiscation of that shipload of Missouri mules early in the fight is proving a real hardship to Havana restaurant keepers.

And now it appears that all the while the Honorable Hallelujah Ayer was setting a trap for the democrats—bless his cunning pictur!

The whole German nation seems to be suffering with Bismarck's gout and neuralgia. And the Germans are not very sympathetic either.

When the Philippines, Hawaii and Porto Rico have been yanked into the union a boom in the breech-clout industry in this country may be confidently expected.

General Blanco does not need anything, but if the foolish fondness of a maternal heart will cumber him with help he will set a candle in the window to light the pathway.

And when Cervera is cornered, if that is ever accomplished, the Oregon should be permitted to open the ball. She has come too far in order to be in at the finish to be given a back seat now that she has arrived.

Like the burning out of a candle has the thread of life of Hon. William E. Gladstone ebbed away.—Durham Herald.

Spain announces that she will send the Victoria, Numancia, Lepanto and Alfonso XIII to the Philippines. If that is all, Dewey with the Charleston and Philadelphia added to his fleet will probably be able to give them the warmest welcome any Spanish fleet has ever received in the bay of Manila.

The Spaniards have fortified seventy-five miles of Cuban coast with Havana as the focus. The only reassuring feature about this wise provision is the improbability that when our squadrons begin to singe the flanks of old Morro Spanish marksmen at either end of the line of horrid redoubts will of prove especially dangerous.

When the tug Uncas went to Havana to arrange for the exchange of Thrall and Jones, Mr. Sylvester Sonvel who was refused passage on the boat stowed himself away and went notwithstanding. Now Mr. Sonvel, of the World, has been informed that he must keep away from the navy and from the naval stations. Evidently your Uncle Samuel does not propose to take any chances of becoming an accessory in the yellow business.

SATURDAY'S LITERARY CHAT.

[All books and magazines mentioned below may be had at Wharton's book store.]

"She Danced before Him" is the title of an exquisitely written Japanese story in the June Pall Mall Magazine. The story is the least bit Zolaesque but in the days of Madam Sarah Grand nobody need be shocked by that. It is a story of an English consular attaché and a Japanese dancer, though the story only begins in Tokyo. The country setting is perfect and the coloring beyond criticism. "Rupert of Hentzau" continues with all the hopefulness that admirers of Phroso can desire. The first of a series of papers on the "Evolution of Comfort in Railway Traveling in America" is instructive. There are several excellent poems.

The "Oak Leaf" is at hand, artistic in design and full of short articles on timely topics. There is an excellent report of the recent unveiling of the Bugler Boy Monument.

Dr. Robertson Nicoll is responsible for the interesting announcement that Miss Marie Corelli will visit America in the spring, or at least in June, as the guest of Mrs. J. Russell Selfridge, of Philadelphia, daughter-in-law of Commodore Selfridge, U. S. N.

Howard Pyle has made for the June Scribner's a dramatic painting of the storming of the historic Chew house in Germantown. The incident pictured was described to Mr. Pyle by one of the Chew family. An appreciation of Anton Seidl's work as conductor is contributed by H. E. Krehbiel. Richard Henry Stoddard, the aged poet, whose work is seldom seen nowadays, contributes a poem entitled "Gullstone" (which is the Persian for "The Rose Garden").

Captain Alfred T. Mahan has written a paper for the June number of the Century on the causes of the failure of the Spanish Armada. It accompanies an illustrated article giving the story of the famous catastrophe, based on manuscript records and on the narratives of survivors and other Spanish documents.

New Ireland is to be the name of a weekly Irish journal to be published in London at the price of one penny. It will be independent of party and sect, and will endeavor to interest Irish men and women in the social development of their country and in the doings of eminent members of their race in art, science, literature, etc., at home and abroad.

W. D. Howells is to write a series of American Letters for Literature. Those being written by Henry James are too ridiculous for serious comment. Mr. James has become an adept in the art of saying nothing with most minute and wearisome analysis.

Professor Moses Coit Taylor has written a book of "Glimpses of England."

Winston Spencer Churchill, lieutenant of the Fourth Queen's Own Hussars, who has written "The Story of the Malakand Field Force," is the elder son of the late Lord Randolph Churchill, and is half American.

Pierre Loti has gone to Madrid to write picturesque articles for the Figaro. He was met on the way by some old salts, who begged him to fit out a privateer to fight the Americans. Unhappily for literature this project is not feasible. If it were we might have such a story of buccaneering from Pierre Loti as would wring admiration from the ghost of Stevenson. —London Weekly. Or we might have had an American broadside poured into the Oriental-dreaming Loti's boat that would have wrung eternal anguish from the unfurled shade of Julien Viaud. He had better stick to Polynesian and Basque idylls, and we can forgive him his exotic adoration of Queen Christina.

The June McClure's is also a special war number, with a new cover by Kenyon Cox. There are articles by General Miles and General Fitzhugh Lee; an account of the first cruise of the blockading fleet of Cuba, written by Mr. Stephen Bonsal, who was on the flagship New York; a description of the marching of the volunteers, by William Allen White; some "Songs of the Ships of Steel," by James Barnes, and an American's account of his life in Manila. A war hymn, by Henry Newbolt, the author of "Admirals All," is a feature.

List Your City Taxes.
Notice is hereby given that I will attend at the Mayor's office, No. 112 North Elm street, during the month of June for the purpose of listing taxes. Those persons not listing their taxes, will be liable to a double tax and an indictment for said failure.
John S. Michaux,
City Clerk.

1,250,000 Gallons of Water.

Philadelphia, Pa., May 18.—The tank steamer Maverick, chartered by the Government from the Standard Oil Company of New York, to carry drinking water to Army encampments at Key West and Tampa, Fla., sailed today with 500,000 gallons of water from Brandywine Creek at Wilmington, Del., and the reservoir at Chester, Pa. At Hampton Roads she will take in tow a barge also chartered by the Government with 750,000 gallons from the water supply at Norfolk.

The Spanish Squadron.

Madrid, May 19.—Midnight, via Paris.—The Spanish squadron has arrived at Santiago de Cuba.
Later—A direct message from Santiago de Cuba confirms the arrival of the Spanish squadron.
4 a. m.—The Spanish fleet on arriving at Santiago de Cuba found there two American warships which retired with all speed. The Queen Regent has cabled congratulations to Admiral Cervera.

Richmond, Va., May 19.—Colonel Benham Cameron, the popular horse man of North Carolina, has presented Gen. Fitzhugh Lee with a splendid black horse to ride in the Cuban campaign.
The name of the animal is "Choctaw," and he is of the purest blood.

NOTED SUMMER RESORT.

Something About the Many Attractions of Morehead, City.

The noted Atlantic hotel at Morehead City, N. C., whose advertisement appears in this issue, will be managed this summer by Messrs. Pettyjohn Bros., of Augusta, Ga.

The coming season will probably be the largest at this resort of any on the coast, numbers of applications for accommodations being received from all over the country, the war apparently having no effect on its patronage for the ensuing summer.

The management will be first class in every particular, the formal opening taking place on May 28th.

Especial attention has been given to the addition of various amusements and attractions. The ball room is the largest in the south and the celebrated Old Colony orchestra of Erie, Pa., has been engaged for the season. Moonlight sailing in the still waters of the land-locked bay is a delightful and favorite pastime at this famous resort.

Mr. McLauren Pettyjohn, one of the managers, was in the city today stopping at the Benbow.

The Hardware News.

PUBLISHED BY ODELL HARDWARE CO.

EDITORIAL.

We have had the cool wet spell in May. We may now expect the summer season to begin shortly, and to continue without interruption.

We do not think there is any reason for dreading the warm weather. There are a great many enjoyments peculiar to the spring and summer, without which life would be exceedingly monotonous. Pleasures will soon be on hand.

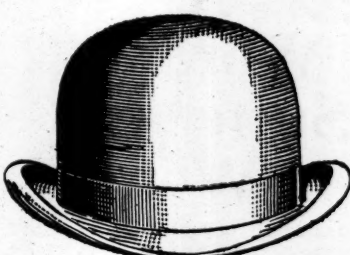

By the way, have you secured a BICYCLE? The roads will soon be in fine condition for riding. Comfort, pleasure and health demand that you take advantage of the low prices which we are now offering, and supply yourself with a wheel. The Crawford has made a record of which any wheel might well be proud. The price is exceedingly low.

If you wish an Ice Cream Freezer, a refrigerator, or any other summer specialties, do not forget that we are Headquarters.

ADVERTISEMENTS.

The above picture is very suggestive. What is more pleasant on the evening of a warm day, than to spray your grass and flowers: and if you should accidentally get the hose turned in the wrong direction, the victim will not suffer so keenly as this would indicate.
